***ELECTION / RESTRICTION***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claim 1-7, drawn to a searching engine of a business-to-business management mode of the Internet including at least one large picture, classified in class 705, subclass 26.
- II. Claim 8, drawn to a business-to-business management mode of the Internet including charging advertisement fees, classified in class 705, subclass 26.
- III. Claim 9, drawn to a business-to-business management mode of the Internet comprising watching configurations, classified in class 705, subclass 26.

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as the generation of advertisement fees. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Inventions I and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are

shown to be separately usable. In the instant case, invention III has separate utility such as watching configurations. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group III, restriction for examination purposes as indicated is proper.

Inventions III and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as the generation of advertisement fees. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Group III is not required for Group II, restriction for examination purposes as indicated is proper.

A telephone call was made to Keith Kline on March 8, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
